OUR HISTORY

In 2005 a group of young, talented and experienced professionals who had done very well in their careers decided that it was time to bring their skills in the shape of an IT company with a tremendous and unique value proposition.

The same year some of the most reputed technologists in leading corporate companies decided to concentrate on affiliation that putted the Multibiz Services on the regional map for technology services.

Multibiz Services was created to bring skill sets, technologies, and methodologies to activate technology dynamics in organizations in Pakistan. The company, with a vision to deliver the next generation of IT services and to inject unparalleled professionalism and integrity

Multibiz Services focus is to comfort the customer from the spasms of technology management and operations by enabling world-class end-to-end integrated systems operational for our customers. At Multibiz Services, we empower our customers to build, grow and profit by focusing on their core business and competencies to achieve competitive advantage.

OUR VALUES

Our clients understand that they need to allow us a certain amount of creative freedom to produce the kind of Internet presence that produces results.

Some things never change. Or should never change, like values and ethics. The hunger for excellence and the passion for pushing boundaries must live on, but so must the resolve to uphold what we stand for.

Multibiz Services believe in the phrase “Always treat the customers, business partners and colleagues with courtesy and respect. No prejudices.”
